

Tornados to Terrorism: “Be Ready”

“Preparedness is not, at the end of the day, just a government responsibility. The government does not own most of the assets in this country. We don’t operate the business, and we don’t employ most of the people. That’s why it’s a civic duty and a personal responsibility for individuals and private businesses all across the country to do their part in personal preparedness.” - Secretary Michael Chertoff (Department of Homeland Security)
